

KiNTO RIDE

**Fully automated
ride-pooling platform
that makes your
business in demand**

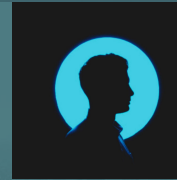

HOW DOES KINTO RIDE HELP FLEET OPERATORS OVERCOME EVERYDAY CHALLENGES?

1

COPING WITH INFORMATION OVERLOAD

KINTO Ride incorporates all pieces of information they are getting into one platform: ride requests, vehicle occupancy, drivers whereabouts, pickup and dropoff times and locations - all are visible within the operator's admin panel.

An effective fleet manager is, not only tactical, but also business-minded and tech savvy.

2

MAKING SURE ALL ASSETS ARE FULLY UTILISED is the essence of KINTO Ride. And by assets we mean both the employees and the machinery. With our platform with less administrative hassle our clients can manage and scale up to thousands of vehicles in multiple cities and sites.

With their unique insights into fuel efficiency, vehicle maintenance, driver safety, federal and state regulations, and fleet expenses, a fleet manager is one of the most important drivers of your business.

3

MANAGING A GEOGRAPHICALLY-DISPersed TEAM becomes easy with KINTO Ride since the location of every vehicle and passenger is tracked live within the admin panel.

KINTO RIDE: MULTIPLE USE CASES

UNIVERSITY

STUDENTS GOING TO/FROM CAMPUSES WITH MORE FLEXIBLE COMMUTING HOURS BASED ON THEIR SCHEDULES REDUCING TRIPS AND FLEET COSTS.

CORPORATE

EMPLOYEES COMMUTING TO THE OFFICE WHETHER IN BUSINESS HUBS AROUND THE CITY OR IN THE CITY CENTER.
