

The Halo Kiosk is sleek, stylish and fits most tablets up to 12". Ideal as a business solution to manage meeting rooms or as an information point. Designed to sit flush against any wall or glass surface, the Slimline 10+ Kiosk can integrate additional devices alongside the tablet or touch screen to create a multi-device solution.

## Device Integration

The Slimline Kiosk can integrate devices such as NFC/ RFID reader, barcode scanner, biometric scanner and reader, card reader, USB and ethernet Hub or webcam and facial recognition camera.

## PAYMENT DEVICES

The Slimline Kiosk can integrate devices such as NFC/ RFID reader, barcode scanner, biometric scanner and reader, card reader, USB and ethernet Hub or webcam and facial recognition camera.

## SCANNERS

Scanners are able to be applied in many different situations, from ticket reading to POS systems. Some of the ways in which scanners can be applied are Passport and ID scanner, Barcode 1D and 2D, QR code or Fingerprint (biometrics).

## NFC / RFID READER

Contactless covers a wide array of different applications. NFC devices can be associated with apps, for example Apple Pay, which allows for payments to be made when connected with an NFC compliant device. RFID devices are most commonly used in industrial situations for tagging large shipments or deliveries.

## BIOMETRIC SCANNER & READER

The Slimline Kiosk can integrate devices such as NFC/ RFID reader, barcode scanner, biometric scanner and reader, card reader, USB and ethernet Hub or webcam and facial recognition camera.
