

Kiosk Solutions Transforming Industries

"It is not the strongest of the species that survives, but rather, that which is most adaptable to change."

- Charles Darwin

WHAT IS SELF-SERVICE?	4

NANO KIOSKS	12
MINI KIOSKS	14
COMPACT KIOSKS	16
FULL INTEGRATION KIOSKS	18

Self-service is quickly becoming the norm and is expected by many consumers in a variety of different solutions. The cost of a self-service kiosk reduces costs and overheads, saves space and is available 24/7 to meet consumer demands.

Whether it's a reception desk self-service check-in point, charity donation station or a fast food self-service kiosk, our kiosk solutions are all about self-sufficiency and empowerment for the user.

The Self-Service Industry

86% of buyers will pay more for a better customer experience.
Walker, Customers 2020: A Progress Report

The global marketing for self-service kiosks is expected to total:
\$12.8 Billion
expanding at 10.7% compound annual growth.

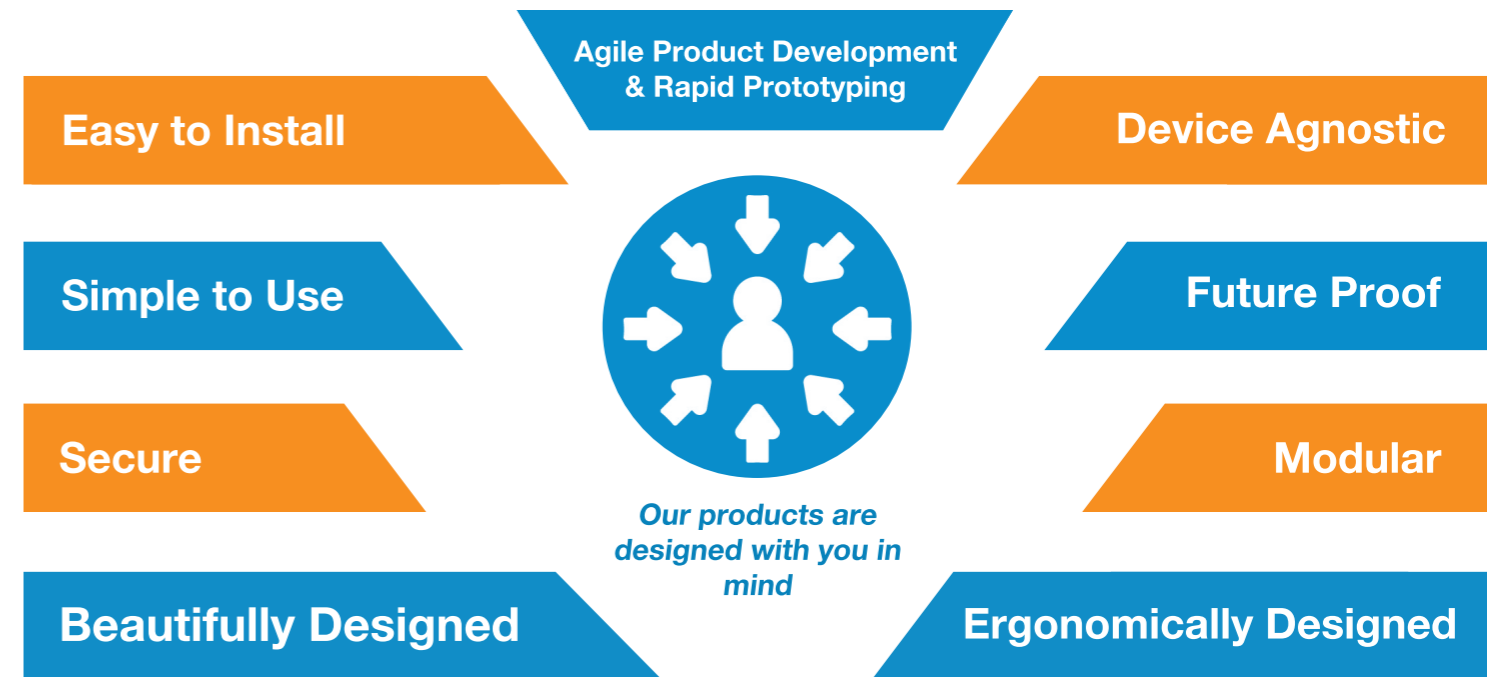

Global Interactive Kiosk Market: Analyst's Forecasts

Average spend at a self-service kiosk is
15-20% higher than orders at traditional checkout terminals.
Restaurant Industry Survey

Self-service usage increased from **67%** in 2012 to **76%** in 2014.

Forrester Online Survey March 2014

imageHOLDERS are experts in kiosk solutions and deployment. We can offer project management to create an end to end solution.

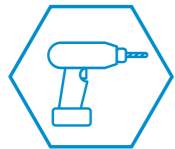

Our products are designed with you in mind

Our Design Service team can work with your business to find the **perfect solution**; whether that's a standard product or a tailored solution to suit your exact requirements.

Simple to install

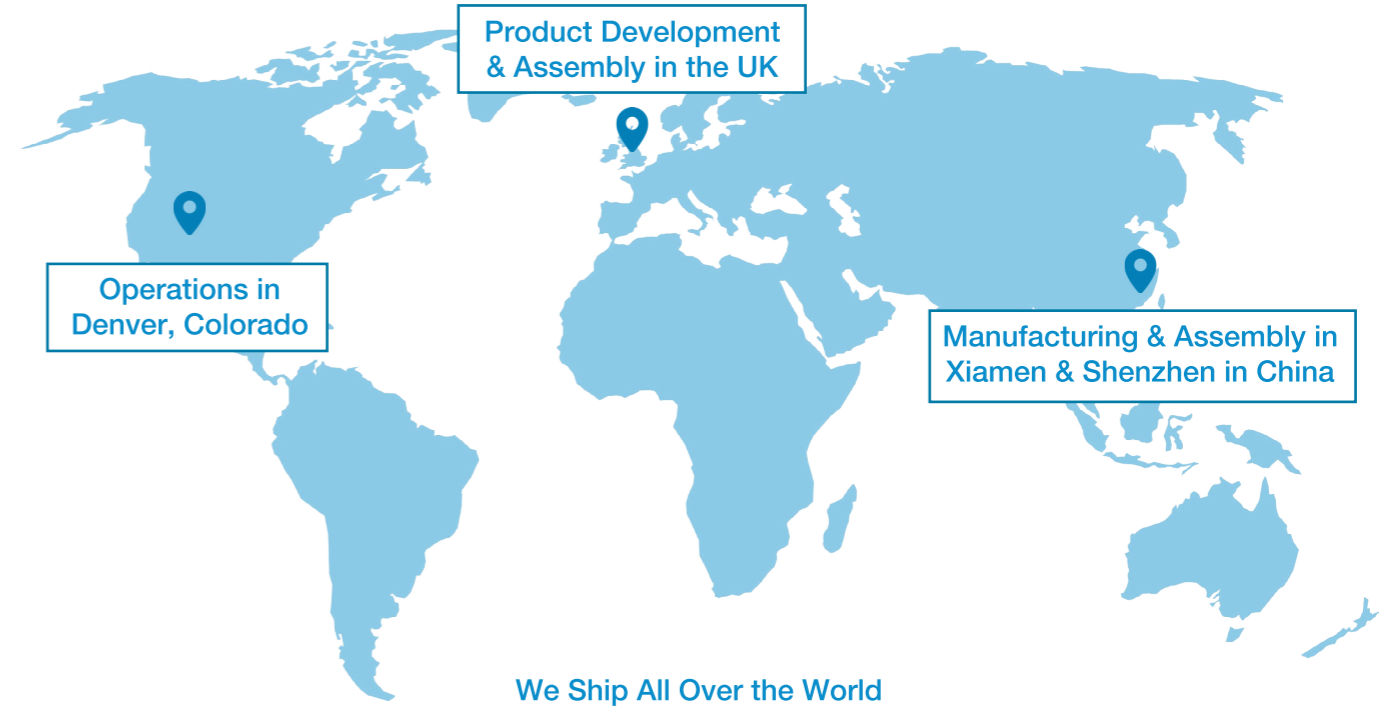

Secure

Easy to use

"Innovative products exceeding your business expectations"

We Ship All Over the World

CUSTOM DESIGN SERVICE

We work with the client to develop a brief and a project plan. We present concept sketches for review and feedback.

When you've signed off on the design, we will prototype the enclosure to determine whether it is fully fit for purpose, and fits the specification.

For certain products, special tooling may be required to produce the desired quality.

After you are fully happy with the design, the tooling and the prototype, we will put your enclosure into production.

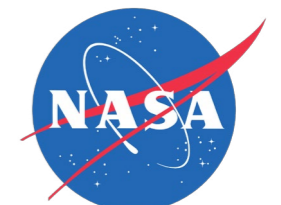

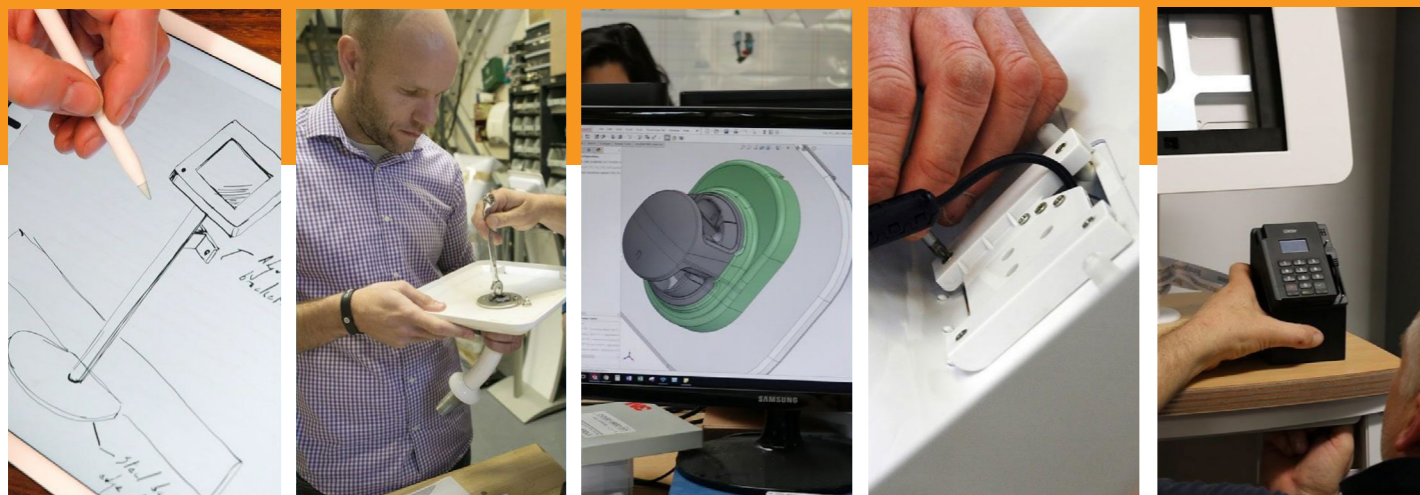

We will deliver, and if necessary, assist you in the setup and installation of your new tablet enclosure.

Our Customers Around the World

John Petit, Managing Director, BGT:

imageHOLDERS are a great collaborative partner, their knowledge and ability to react to an evolving brief set them apart. They understood what we were trying to achieve for Coral and excelled at creating an innovative betting terminal solution from initial conception right through to delivery. imageHOLDERS went above and beyond, producing the market leading tablet Compact Kiosk solution for the betting industry.

imageHOLDERS integrated tablet kiosks can benefit any business looking to implement self-service technology, engage and retain customers, whilst improving the customer journey and service.

KEY FEATURES

When you require just the tablet and no devices.

Our simple yet stylish tablet enclosures are perfect for data collection, room booking, visitor management and so much more. We're tablet and software agnostic, so we can work with you to create your ideal solution.

Our enclosures are available as handheld, counter mounted, countertop, wall mounted and floor standing, ensuring minimum space is required with maximum impact. All of imageHOLDERS' enclosures are designed to be future proof, ensuring that if your chosen tablet or touchscreen becomes end of life, you can upgrade your tablet by simply changing the tray and bezel.

If you're looking for a tablet plus device(s), look for our Nano Kiosk range.

Tablets or touchscreens & 5+ devices.
The highly secure compact solution.

Our Compact Kiosks were designed for high footfall retailers, able to withstand heavy usage, these modular kiosks are transforming retailers across the World. But the Compact Kiosk is also ideal for airport check-in desks, express check-out at hotels or library book returns.

Our Compact Kiosks are capable of retrofitting to your furniture, alternatively we can provide a range of furniture, from podium tables, to leaning rails or even freestanding single units. Our kiosks are designed to be future proof, ensuring that if your chosen tablet, touchscreen or even device becomes end of life, you can easily upgrade without having to order a new kiosk, simply change the front panel, bezel or tray depending on your update. Simple.

If you're looking for a larger solution, which can even fit A4 printers, look for our Full Integration Kiosk range.
